CHINA RILED

At the Course Recently Taken by the United States in Again Putting Up the Bare to Chinese Citizens.

The *Shung* Co., a San Francisco Chinese newspaper, says the Emperor has signed his will to prohibit the relations of any kind between China and the United States.

PHILADELPHIA, May 9.—A movement was recently begun to cause the return of all the Chinese in the United States to China in consequence of the exclusion bill.

A few days ago a conference of the Chinese of Pennsylvania, Maryland and several other neighboring states was held in this city and attended by hundreds of the most influential Chinese. Delegates attended from many cities, but all the delegates are kept a profound secret. The convention adjourned Friday.

These meetings have been held in Baltimore, but the fact looked out and are published in the Baltimore papers. Thereupon Gen. Hui, the Baltimore magistrate, who is also the grand master of the Chinese Masons, issued an edict, transferring the meetings to Philadelphia.

The main subjects discussed were the articles published in the *Shung* Co., the Chinese weekly published in San Francisco by W. K. Lee, the editor, in which are detailed the public meetings which have been held in China, particularly the one at Philadelphia, and the one addressed by the emperor himself. The article concludes as follows:

"Our country has at last awakened to the fact that her rights and her independence and ancestral gods have been unduly imposed upon. Why does not our motherland do likewise to the unbelieving American race? But the time is coming when our rights must be respected. The father has asserted his willingness to listen to the appeal of his children and when we have all done our duty properly the edict will go forth prohibiting relations of any kind between China and this United States. American capital will be driven from our native lands, ships will not be allowed to land in our ports and in fact we will meet another war in commercial sense. But then there are conditions which must be added. If we ask our home government to enforce these restrictions, the Chinese must imperatively upon every Chinese to return to his native land. If anyone has not the means, proper consideration will be provided for him, and it will be understood by all that in case the action is taken by our government and we need not in all instances be the one who disavows the order to leave the country. The Chinese must be in the eyes of the world the most civilized nation in the world, and the Chinese must be in the eyes of the world the most civilized nation in the world, and the Chinese must be in the eyes of the world the most civilized nation in the world."

A monster meeting to be held in Boston was proposed and it was suggested that Tzu, minister at Washington, be asked to attend and give his opinion on the movement in question, but the speaker expressed grave doubts of the invitation being accepted, as they say that the minister by so doing would compromise himself. Thursday night, Chong, one of the leading lights, harangued the meeting for over two hours. Gong Hui also made an address.

VESTIBULE TRAIN WRECKED.
Disastrous Accident on the Atchafalaya, Between Santa Fe Railroad.

FORT MADISON, Ia., May 6.—A disastrous accident occurred on the Atchafalaya, between Santa Fe Railroad, Tuesday evening, May 5. The vestibule train went through a bridge, through the weakening of the foundations by the recent heavy rains.

Seven persons were killed outright and twenty-three injured. The engineer and fireman are among the killed. There are reports that the injured who are seriously hurt.

The killed are: Leon Marker, tenth and Main streets, Kansas City.
S. E. Verlier, Westport, Mo.
Luther Combs, Kirksville, Mo.
J. C. Graves, editor, Le Mars, Mo.
William Hays, Oklahoma City.

Mrs. G. Best, Brush, or Beach, and child of nine months of age. Another child of two years was not injured. The woman and child were from San Bernardino, Cal., and were on their way to Allegheny, Pa., to visit her two sisters.

SACRED DAY AND OCCASION.
Yet Those Present Were Called Upon to Observe a Day of Mourning.

CLARKSVILLE, Tenn., May 9.—At a colored baptizing at Cherry's Station, three miles from Clarksville, Sunday evening, John Coleman and Thornton Johnson, both colored, became involved in a difficulty, which Johnson shot and killed Coleman. Johnson took to the woods, and has not as yet been captured. They both supposed to be under the influence of liquor.

POLK'S PAPER.
Nor Harrison or Blaine, Nor Hill or Cleveland Will It Support.

RALEIGH, May 4.—The Progressive Farmer, L. L. Polk's paper, is out for the third party. It says that the Alliance convention will not be held until the 25th of this month. I certainly am not a candidate for president in the sense of seeking the nomination. If I could decide to present my name to the convention in view of existing conditions, that is another matter.

ITS A LAW NOW.
The Chinese Exclusion Amendment Signed by the President.

WASHINGTON, May 6.—The vice president, at 12:15 p. m., Thursday, announced his signature to the so-called amended Chinese bill (having been signed by the president Wednesday). It went back to the house for transmission to the president, who signed it Thursday afternoon, which was just in time to go into effect before the old law expired.

AMERICAN SUNDAY SCHOOL UNION.
Exercise of the Sixty-Eighth Anniversary Held in Washington City.

WASHINGTON, May 8.—The sixty-eighth anniversary of the American Sunday School Union was held in the New York Avenue Presbyterian church yesterday evening. Hon. William Strong, president of the society, presided. Addresses were delivered by Rev. Dr. Bartlett, Rev. J. C. McCallagh, superintendent of missions in the south, and W. L. DeWolf, superintendent of the Rocky mountain district.

CAPTURED BY REBELS.

The Town of Chalmers, Venezuela, Now in the Hands of the Rebels.

New York, May 9.—Calling to his paper, the Venezuelan correspondent of the *Herald* says: "I have just received important information, which, strange enough, comes by way of Caracas, instead of the insurgent camp near San Sebastian. The news received is to the effect that Chalmers has fallen."

"The mystery surrounding Chalmers is solved at last, and there is no doubt that the commander-in-chief of the government troops is in the hands of the insurgents. Chalmers and his commandant were not taken without a show of resistance, but constant marching and the want of supplies had so weakened the government troops that to hold out against the rebel forces who opposed them was no longer possible."

"Remnant of the disorganised flower of Palaco's army have been coming in for several days, but they were discredited. Major details mention a fight in which the rebels drove into the city with the insurgents following and taking possession."

"The report of Chalmers' capture is from Lavelle has come a message to the effect that Chalmers was taken by the rebels, and that the rebels were armed. This indicates that the vessel which landed her cargo somewhere in the vicinity of Puerto Suero carried the material needed by the revolutionists in Caracas."

"Coro is the northeastern district of Falcon, and was formerly the state of Coro. The reason of the departure of Arango from Carabobo into Los Andes is now clear. He probably crossed over into Coro to help organize the rebellion there."

"Among the passengers on the steamship, Venezuela, which arrived at New York Saturday from La Guayra, was Jesus Maria Paul, nephew of ex-President Rojas Paul, of Venezuela. The latter is in New York collecting troops to send to Coro to assist in the overthrow of Palaco."

"The younger Paul, a few days before the sailing of the Venezuela from La Guayra, was a prisoner in the Bolivar, Caracas, where he had been placed by order of Palaco four months ago."

"On April 30 he was released, given a passport and ordered to get on of the country at once. Infatuated with the idea of securing his release, he was a nineteen-year-old daughter accompanying him. Mr. Paul said last night that Palaco would be overthrown within two months."

WHAT'LL THE TROOP DO?
This action almost sure to create a politico-religious brood that may develop into a cyclone before the month is out.

News has just come from China that that government is making vigorous efforts to suppress the anti-foreign sentiment there. One year's work was done to suppress the anti-foreign sentiment there. One year's work was done to suppress the anti-foreign sentiment there. One year's work was done to suppress the anti-foreign sentiment there.

AN AMERICAN STATE CARL.
New York, May 9.—M. P. Phillips, in behalf of a syndicate of capitalists, visited France, in order to study the building of a canal at Monte Carlo, returned Sunday on La Bourgogne.

It is the syndicate's purpose to get permission to open a resort similar to Monte Carlo, at one of the American pleasure resorts.

To THE VOTERS OF CRITTENDEN COUNTY: Having served you for the past two years as Sheriff, I take this method of expressing to you my gratitude for the confidence imposed in me. It has been the custom of the county to endorse all past Sheriffs who have asked it of the people, and feeling that my treatment of the people has been such as to merit an endorsement at your hands, I announce myself as a candidate for re-election.

I feel that my experience will enable me to serve you better in the future than in the past, and if chosen by the people, will endeavor to do so. Yours truly,
A. L. CRUCK.

Democratic Convention.

Pursuant to the instructions of the Democratic State Central Committee, a mass meeting of the Democrats of Crittenden county is hereby called to meet in Marion on Saturday, May 14, 1892, at 2 o'clock, p. m., for the purpose of appointing delegates to the State convention to be held in Louisville, May 24, for the purpose of selecting delegates to represent the Democrats of Kentucky in the National Democratic Convention at Chicago in June.

J. W. Blue, Ch'mn.

The President's household is not happy.

Mrs. Blaine is taking a hand in the Presidential fight. It is said in a Washington dispatch in this morning's news that she has it in for Harrison because he refused to make her late son Walker Blaine Solicitor for the Department of State. If this is authentic, it means a very black eye for President Harrison.

We are in receipt of the State Geologist's report on the progress of the survey in Kentucky. The report shows that good work has been done by the Geologist, and that Kentucky, when the report is completed will be in shape to let the world know what is under the surface. Referring to the survey in this section Prof. Proctor says: "Mr. E. O. Ulrich had previously done the geologic field work in Caldwell and Crittenden counties, but additional field work was made necessary by observations in these and the adjoining county of Livingston." This was completed, and he is now engaged in preparing the report on these two counties for publication.

If the Democratic doctrines were ever right, they are supremely right now. "Equal rights to all and special privileges to none" is sound doctrine. Let the sunshine of a Republican government fall with its liberal rays upon the rich and poor, the high and low, the farmer, the doctor, the lawyer, the artist and the artisan alike. Give no man, nor class of men, no corporate nor company, nor any other creature, advantages that all do not enjoy. In the battle for bread, in the rush for wealth, and in the race for honors let industry and frugality, honesty and intelligence be unshaken by any law that puts the goal within easier reach of one man than another. This is democracy.

To Increase the State Tax Rate.

A bill has been reported to the House by the Committee on Revenue and Taxation to increase the rate of taxation from 42½ to 47½ cents on the \$100 valuation. This increase of five cents is to be appropriated to the five cents is the general expenditure fund. It has been demonstrated that the reduction of five cents in the tax rate, two years ago, was unwise and embarrassing to the proper administration of the State government. The only contest, when the bill comes up for consideration, will doubtless be for a less increase of the rate. It is not probable that the tax rate will be increased more than five cents, although many persons doubt if the increase proposed by the bill will be sufficient to prevent a large deficit in the State Treasury at the close of the fiscal year, June 30, 1893.—Frankfort Capital.

J. B. ROBINSON'S SHOW.

The Amusement Gaiety of the Period.

More than seventy years of continuous ovation has characterized the career of the John Robinson show, which this season is reaching the proud culmination of its triumph. No other show in existence can display so continuous and so clear a record. From the cold waters of the Keweenaw to the shores of the Pacific, from the northern boundaries of civilization to the southern limits of the continent, for more than one generation has the name of John Robinson been a household word, and the coming of the always unexceptionable exhibition enters prizes that bear his name is ever greeted with a hearty welcome. From the genesis of the show until its present colossal perfection, there has not been a solitary season in which it has not led its fellows in the multiplicity and general excellence of its attractions, and now it towers above and dwarfs all contemporaneous exhibitions into comparative insignificance, and this season it presents such an opulence of strolling and meritorious attractions as to truly enable it to be designated as a vast Amusement Gaiety, whose wondrous wealth of entertainment is unlimited and immeasurable. It is merely a work of supererogation to say that this circus has always been the best and biggest, always in the van, always profuse in leading and sensational features, and always fully equipped with the finest stud of horses and the most skillful and finished bareback riders, gymnasts and acrobats in the profession; that his large, well-ordered and well-selected menagerie contains living, vigorous specimens of all that is strange, rare and curious within the range of natural history, and that his royal Roman Hippodrome is a vivid and realistic reproduction of that of the days of Imperial Caesar.

It may be said, however, that to these always prominent and desirable attractions has been added, for the current season, a feature so stupendous in magnitude, so overpowering in unprecedented grandeur and impressiveness, and so enormous in the expense necessary to its production, that the features mentioned, grand and multifarious as they are, can at best play but a secondary part. The grand biblical, historical, scenographic, lyric, terpsichorean and pantomimic spectacle of "Solomon, his Temple, and the Queen of Sheba" is thus alluded to: a transcendently impressive and eminently moral and mind-elevating pageant and scenic production, from the fertile brain of Mr. John Rettig, the projector and creator of "Rome under Nero," "The Fall of Babylon," "Montezuma" and "Don Quixote in Egypt," noted spectacles which have been annually produced under the auspices of the Order of Cincinnati, and which have become famous throughout the length and breadth of the land. To claim that "Solomon, his Temple, and the Queen of Sheba" is the masterpiece of this brilliant artist is not transcending the limits of veracity. There is not a sensual, libidinous nor lascivious scene, set or thought in the spectacle, and every thing in the entire presentation is holy, chaste and pure. The limits of a newspaper notice prevent mention in detail of the manifold characteristics and excellencies of this gorgeous and imposing spectacle, but the reader will find exhaustive description in the bills, circulars and advertisements disseminated broadcast by the management.

The Robinson show will exhibit at Marion, Ky., Monday, May 30, 1892.

Miles Orton's show was here Thursday. The circus performance was good, but the menagerie portion of the show was a tame affair. There are a set of fakirs and gamblers with the show that are a disgrace. Numbers of parties here lost money "monkeying" with the set. The sheriff was called upon more than once to make the rascals disgorge, and in one or two instances they did hand over their ill-gotten gains. Dr. Russell was fleeced of \$70 in making change for one of these sharpers, but succeeded in getting his money. So long as Orton or any other show permits such barnacles to follow them around the people should steer clear of such shows.

To the Good People of Crittenden and Adjoining Counties.

We wish to say a few words. Two years ago we commenced business at Marion, and have now been in your midst long enough for you to know what kind of people we are. We will say that no other firm has paid out as much money to the farmers as we have, and we have never offered to sell you anything, but have always had the cash and paid it to you for your produce. Now we have begun the sale of flour and would most respectfully ask a share of your trade. We don't ask all but only a part, and remember, if our flour is not as good or better and as cheap or cheaper than any flour offered you we don't want you to take it, as we fully guarantee every sack and barrel, and when it is not what we represent, it don't cost you a cent, and we pay you for time and trouble of taking home and delivering. You are admonished to patronize home industry. What is home industry? Is it not home farms, or firms that pay out their cash to you? Have we not done this for two years and are we not still doing so? We say yes. We are here to stay and will continue to buy your produce or anything you have to sell, and will pay cash and the highest market prices. We want 500,000 dozen eggs at once, 500,000 chickens, 500,000 lbs of wool, and everything else you have to sell. We have got the cash ready to pay for it and don't you forget it. If at any time we mistreat you, all you have to do is let us know and we guarantee to satisfy you. It is true our mills are not located at Marion, but that does not effect prices, and as prices are what talks, "we are in it." We offer flour at same price as others and we will pay you the same price as others for your wheat, corn, etc. As we have been in your midst for two years, paying out from thirty to forty thousand dollars per year, before we had asked for a cent of your custom for anything we sell, we cannot see why we are not entitled to some of it the same as any other home industry, as when you buy our flour your money does not leave the county, but goes right back into you or your neighbor's hands for circulation. Don't take our word for this, but ask the Marion Bank if we ever sold a cent away from here, but on the other hand, we are always bringing money in to pay out.

COLUMBUS DAY, OCT. 12.

A Message to the Public Schools of America.

LOCAL OBSERVANCES SUGGESTED

The Day Should Be Signified in Every Town and Village in the Republic by a Local Celebration of Which the Public Schools are the Center.

To the scholars of the public schools of the United States the executive committee of the Columbian public school celebration sends the following message:

The 12th of October, 1892, the 400th anniversary of the discovery of America, ought to be observed everywhere in America.

The day will be marked in Chicago by the dedication of the Columbian exposition grounds. The day also may be signified in every town and village in the republic by a local celebration of which the public school is the center.

The public schools of the republic will form the most fitting centers for all these local observances. A national public school observance simultaneous with the Chicago exercises will exalt a popular interest in the coming exposition. Far more important is the fact that the public school has the right to occupy the most prominent place in the celebration.

The public school is the center of the neighborhood, which links all the neighborhoods together, and can thus furnish a common bond for a national celebration. The public school is the ripe fruit of the four centuries of American civilization. The public school of today sways the hundred years to come.

How It Came About.

The first approval of this suggestion came from the public school scholars themselves. When the plan was first proposed by The Youth's Companion, January, 1891, thousands of scholars responded, testifying to the enthusiasm with which the scholars responded.

The world's congress auxiliary of the Columbian exposition then took up the proposal, calling upon all the people of the republic to observe the day in their own localities, and suggesting that the public schools be everywhere the centers of the celebration.

The superintendents of education were the next to recognize the importance of giving to the public schools the first place in this Columbian anniversary. At their national convention in Brooklyn in February, 1892, they took charge of the movement, and appointed the undersigned an executive committee to lead the schools in their commemoration.

Appeal to the Scholars.

This executive committee now appeals to the scholars themselves to be the first to move. It is for you, scholars of the American public schools, to arouse a sentiment in your schools and in your neighborhoods for this grand way of celebrating the building of America. Educators and teachers will meet you from their side. But it is for you to begin.

There are 13,000,000 now in the public schools. You have the chance to conduct a patriotic movement which will have a place in history, and will strengthen the republic through the coming century.

What to Do.

The first thing to do is to determine, when you read this message, that you will do all you can to induce your school to enter the celebration. Then show this message to your teachers; every patriotic teacher will be glad to help you if you show yourselves in earnest. Take the message to the school committee and the superintendent; their consent and aid are indispensable.

After you secure the support of all these, then let the school vote that it will enter the celebration.

The next thing after this public vote will be the appointment of a committee made up jointly from citizens, scholars and teachers to take charge. The committee should in all cases consist of those most in earnest, so that the work may not be checked by any possible change of teachers during the summer.

The Programme.

A programme of exercises will be furnished by the executive committee. It will be simple and adapted to every school, yet so arranged that more elaborate exercises may be added wherever desired. The aim of this official programme will be that certain leading exercises may be observed in every school in the republic, and that at least in one feature the Chicago programme and the school programme may be identical.

In due time this executive committee will make further suggestions.

The Local Committees.

The duty of your committee will first be to interest the citizens and to prepare the school. Preparations may be arranged. The veterans, both north and south, will gladly be recruits for the schools. The other military, civic and religious organizations of each town will lend their aid if they see that the schools are determined that the celebration shall be worthy of the day. The local press will be the most valuable of all supporters.

On Oct. 12 the stars and stripes should be floating from every school house in the republic.

It is the hope of the friends of common school education that not one public school in the United States will allow itself to be left out in this most memorable celebration.

Executive Committee.

Francis Bellamy, chairman, representing Youth's Companion, Boston.

John W. Dickinson, secretary of Massachusetts board of education.

Thomas H. Stockwell, commissioner of public schools of Rhode Island.

W. R. Garrett, superintendent of public instruction of Tennessee.

W. C. Hewitt, superintendent of Michigan educational exhibit at World's fair.

Thursday.

The day was spent in perfecting the organization of the conference, and in preparing for the work which is yet to be hadly commenced.

Friday.

The special order of the day was Bishop Taylor's report of the work of the church among the natives in Africa. The progress made in the past was encouraging. They had over 8,000 church members, thirty-eight Sunday schools, over 300 teachers and 3,500 scholars. He said the Africans needed education to make them able to take advantage of the resources they have.

Sunday.

In the evening a meeting was held at exposition hall in the interest of an American university and Christian education. It was well attended. All addresses were made by a number of prominent divines.

Monday.

Several memorials were presented, among the most important of which was one petitioning that the discipline be so changed as to make dancing permissible.

Utt for the German colony in Africa. telegraphs that Arris, arriving at Zulu, bar, say the "Dr. Enin is dead." The report, Wolt says, lacks confirmation, although it was undoubtedly true as Wolff telegraphed on May 8, that Dr. Enin was "killed with smallpox while following his advance force from Wadl to Enkoi."

This force was under Dr. Stehman and reached Buloba on Feb. 18. The latter reports from Stehman have been received. Whether Dr. Enin is supposed to have died of the smallpox or violent causes the dispatch fails to state.
